Summary

I'm a BCA graduate with a strong foundation in web development, data structures, and user-centric design. With hands-on experience in building real-world client websites, leading a software developers club, and currently diving into AI/ML and UX/UI design, I bring a blend of technical expertise and creative problem-solving. I am eager to contribute to impactful projects in dynamic tech environments.

Education

Bachelor of Computer Applications (BCA)

Lucknow Public College of Professional Studies

Expected Graduation: 2025

Relevant Coursework: Data Structures & Algorithms (Java), Web Development, Database Management, Human-Computer Interaction

Experience

Web Development Intern ' Umaga (3 months)

- Developed and deployed fully responsive websites for clients, tailored to their business goals.
- Helped increase client visibility and engagement through visually appealing, SEO-friendly, and high-performing web solutions.
- Worked on front-end technologies like HTML5, CSS3, JavaScript, and React.
- Collaborated with cross-functional teams to understand requirements and deliver real results.

Head ' Software Developers Club, LPCPS

- Led a team of developers and organized coding workshops, project builds, and hackathons.
- Mentored juniors in web development and version control.
- Encouraged open-source collaboration and technical presentations among members.
